Green points discussed	
MH welcome all the Green Engage members and discussed the previous meeting points .	
MH brief the team that we have attended UAE SGDs pioneer award ceremony on 26th November 2017 which was organized by UNGC and UAE Global network where the organizations were awarded on exceptional work and advancing	
MH has again emphasis the importance of waste management and recycling as due to improper practices environment on the earth and even in the water is getting damage which is quite harmful in both areas. This month the report of recycling is much better compare to last month, however there is still area for improvement.	
RP mention that we have been facing challenge with company collecting glass for recycling as they don't pick up broken glass which is accumulating in our recycling area. This challenge was also faced last year which have been sorted out	
MH also mention that LED lighting installation have been completed for remaining two meeting rooms (Al shaheen and Al Maha)	
MH also brief the team that green engage is part of annual quality audit and there are certain actions which has to be completed in each property as part of QE.	
HIAB team has participated in international campaign of clean up the world on 21st November which is again one of the initiative to save the environment. We are also participating in clean up U.A.E Campaign which is taking place on 16th	
MH once again emphasis on the importance of saving energy through air conditioning by setting the thermostat of rooms and other areas on higher side as the climate has change and fresh air is quite enough to maintain required	
MH also emphasis to pay attention into detail to save the energy cost and to bring the figures on best level compare to last year as we are still 1% higher than last year. Good practices till the end of December may result to balance the figures and team is struggling hard to achieve the goal where contribution is required by every individual.	
MH requested MA to brief your team through briefings and meetings to have good awareness for the initiative which HIAB have taken for green engage and CSR as the guests of today's world are very keen to know such type of information and most of the corporate client prefer to stay in those hotels which are participating in best practices to	
Degree days is higher (4.5%) compare to last year.	
Meeting adjourned at 15:30pm. Next meeting TBA
